Lila Freedman: "I want ice cream! It hurts,
where the band aid is. I won't get the COVID!
I think that I won't have to quarantine if
I have the vaccine." Age 5

Before the vaccine I felt nervous. But after
I got the vaccine I realized that it was
just swift and painless. So if I get COVID
I can get better sooner and go ~~see~~ my
grandpa and grandma.

~~my~~ I did not want to do it but I was brave.

Getting a shot is fine. It's
just a poke, and then that's
it. GUS

~~I am the same~~ Don't worry it doesn't

really hurt, it does feel like someone is pinching

you after you get it, but it's fine! Harper
