

At first I was scared it would hurt but once I got it I couldn't even feel it. I'm happy I got the covid vaccine because now I can see my friends more and go more places! And I know when I get the second shot I won't be nervous at all. -Lucia (Lulu)

It felt good, but kinda scary, at the same time. It felt good because I know I'm kinda protected, but it was 'kinda' scary, who knows why. Thank you to MS. Kim for giving me the vaccine.

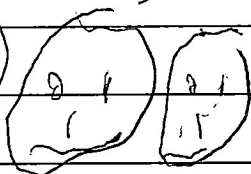

I am happy to get the vaccine! I am happy to be one of the people to get the ~~shot~~ shot. I'd like to say thank you to doctor Kim for giving me the shot. I recommend all people to get the shot. Where your mask stay safe be cool!

Thank you all doctors!

Before the vaccine,
I felt sad.

After,
I felt okay.

I feel happy that it's done.
I feel happy that I'm starting to do a "gooder" job on shots.
