

NAME: Fiona AGE: 8

I was so scared and I was trying to drag my mom out of the hospital but when it happened I said you can do it now but it was done I didn't even know it happened, well I did feel a little prick but I thought it was her nail. Well what I'm saying is its okay and you will feel so so brave and theres the thing I'm not even kidding. Good luck.

Before the shot: I felt nervous and my Brian kept telling me "It's going to hurt a lot."

After the shot, I realized that the shot didn't hurt that much. Plus I get protected much more from covid-19.
